

EXECUTIVE BRIEF

OnBase for Contract Lifecycle Management

Standardize contract practices and equip staff with a 360-degree view of all contract-related information. With OnBase, you manage the entire contract lifecycle, from request to approval to expiration and renewal. Accelerate cycle times, improve responsiveness and drive business value organization-wide through better contract processes.

HIGHLIGHTS:

- Provides complete visibility into the contract lifecycle – including key milestones, workloads and upcoming obligations
- Automates predictable contract management tasks while equipping users to effectively handle knowledge-driven work
- Consolidates and connects contract-related information in one central location, improving access

IMPACT:

- Helps minimize risk and supports compliance by tracking all activities, monitoring performance and ensuring information security
- Enables better control throughout the contract lifecycle and improves level of service
- Streamlines contract processes, accelerating cycle times and increasing productivity
